

[RED SECTOR] OBSIDIAN OVERRIDE DOSSIER

CLEARANCE LEVEL: LEVEL 4 (SECURITY AUTHORIZATION REQUIRED)
SECTOR ORIGIN: OBSIDIAN VAULT / SUB-LEVEL 03
STATUS: CRITICAL LOCKDOWN // ARCHIVIST THREAT ACTIVE

I. Incident Overview

The Red Group operative unit has successfully bypassed the pneumatic pressure seals and disengaged the central glass display latch in the **Obsidian Vault**. System Node 07 reports that the local security conduit is overridden—**however, the Archivist has NOT been stopped**. The Archivist's automated lockdown sequence is attempting a secondary core wipe from deep within the emergency relay network. To permanently sever the Archivist's control, neutralize the red alert status, and restore Sub-Level 3, operatives must execute a hardwired **Two-Step Neutralization Protocol** via the **Beanstack App**.

II. Tactical Clearance Parameters

Parameter	Recorded Value	System Verification
Sector Designation	Obsidian Red	VERIFIED
Vault Pressure Seals	Primary & Secondary Relays	DISENGAGED
Archivist Status	Automated Core Lockdown Sequence	NEUTRALIZATION REQUIRED
Target Protocol	Two-Step Verification (Beanstack)	AWAITING OPERATIVE INPUT

III. Directive Sequence (Two-Step Neutralization Protocol)

To halt the Archivist's secondary purge and finalize sector recovery, open the **Beanstack App** on your terminal/device and submit the final authorization codes:

- Step 1 — Challenge Code Input:**
Navigate to the Secret Code prompt in Beanstack and enter the emergency challenge code:
56809
- Step 2 — Activity Badge Challenge Password:**
When prompted for the activity badge challenge password, input the override key:
Rosebud
- Step 3 — Claim Sector Reward:**
Once validated, Beanstack will issue your **Obsidian Clearance & Quarantine Lifted**

Badge. Present this completion badge to the **Front Desk Staff** to confirm total sector containment and claim your final reward.

IV. System Logs

```
[SYSTEM LOG - 0812-R3]
> OBSIDIAN VAULT MANUSCRIPT LATCH: DISENGAGED
> EMERGENCY RELAY STATUS: SYSTEM OVERRIDDEN
> ALERT: THE ARCHIVIST'S PURGE PROTOCOL REMAINS ACTIVE
> INITIATING TWO-STEP BEANSTACK NEUTRALIZATION...
> ENTER CHALLENGE CODE: [ 56809 ]
> ENTER BADGE PASSWORD: [ Rosebud ]
> REPORT TO FRONT DESK UPON BADGE GENERATION TO CLAIM REWARD...
